Overall Performance

Midland College met the goal and minimum threshold for all six measures in the most recent reporting period. Results were generally stable or favorable, with persistence increasing and post-award outcomes recovering after a one-year decline.

- * Selected by Midland College as its SACSCOC completion indicator in 2017; historical baseline: 23.2%.
- ** For average time to degree, a lower result represents stronger performance.
- Data shown reflect the most recent three reporting years available for each measure; reporting periods may vary by source.
