TMGT 4303 – Electronic Commerce (3-0-0)

INSTRUCTOR: [Son Mai](#) (Sec. AW01)

COURSE DESCRIPTION

This course addresses issues including the digital economy, electronic commerce (EC) marketing, EC models and applications, and building and implementing EC systems. The course will cover the underlying technologies used in the implementation of electronic commerce systems. It identifies the practical skills needed and tools to design and develop effective systems and interfaces. Architectures and interdependence of systems and software that support EC and the state of the art in successful EC systems will also be discussed.

STUDENT LEARNING OUTCOMES

Upon successful completion of the course, students will be able to:

- Use the stakeholder approach to decision making.
- Assess the effects of the cultural, political, legal, technological, and economic forces that shape the global environment.
- Apply oral, written, and electronic communication skills to effectively present and exchange information, including the use of management information systems, the internet and other applications to prepare and present reports.
