## Class Policies

**Academic Integrity:** We commit ourselves to act with academic integrity this term – to be ethical in what we say and write, and to offer credit to others for thinking of ideas before us. I want to share with you how we define plagiarism and examples of what it looks like. Plagiarism is defined as the appropriation, buying, receiving as a gift, or obtaining by any means another's work and the unacknowledged submission or incorporation of it in one's own written work offered for credit. A student commits plagiarism if s/he:

1. **fails to acknowledge the sources of any information** in a paper which is not either common knowledge or personal knowledge. A student can acknowledge a source through in-text citations, attribution lines, footnotes, or other forms of documentation approved by the instructor. (Common knowledge is the basic information within a field or discipline, as well as most historical dates and facts, and many ordinary observations.)
2. **fails to acknowledge direct quotation either by using quotation marks or (for longer passages) indentation.** Without the quotation marks or indentation, passages copied directly from a source might be considered plagiarized even if it is followed by an in-text citation or a footnote. The citation or footnote acknowledges that there is a source, but it does not indicate that the writer has borrowed someone else's exact words. If a writer uses the language of a source, word-for word, he/she must use quotation marks or block indentation.
3. **merely paraphrases the original words of the source.** Some students think they can avoid a charge of plagiarism by changing a few words in each sentence they copy or by rearranging the shape of phrases or the order of sentences in a paragraph. This is not true. When taking notes students must be careful to put ideas in their own words or to use direct quotations when relying on phrases directly borrowed from a source.
4. **borrow the ideas, examples, or structure of the source without acknowledging it.** A student can be guilty of plagiarism if s/he systematically borrows the ideas and organization of a source even if the language of the piece is on a major news event by using exactly the same ideas in the same order as they appear in an article in any popular news magazine.
5. **takes, buys, or receives a paper written by someone else and presents it as the student's own.**
6. **uses one paper for two different courses,** or re-uses a paper previously submitted for credit, without the prior approval of the instructor or instructors.
