Texas Tech University Uniform Graduation Requirements

1. Foreign Language Requirement

Students graduating from Texas Tech University should be able to express, negotiate, and interpret meaning in a second language.

Any entering student who has not completed two years of a single foreign language in high school must complete at least two semesters (or its equivalent) of a single foreign language at the first-year college level or at least one semester of a foreign language at a 2000 level or higher as a graduation requirement. This requirement may also be satisfied by transferring in the equivalent courses from another college or university. Individual Texas Tech University colleges may have additional foreign language proficiency requirements. Additional requirements may be necessary for select majors.

2. Science Laboratory Requirement

Students graduating from Texas Tech University are required to complete two semester credit hours of science laboratory courses. Normally this will be done by taking two 4-credit science courses or combinations of lecture and lab.

3. Communication Literacy Requirement

Students will complete the required communication literacy requirement.

4. Core Curriculum Requirement

Students will complete the required core curriculum.

5. Multicultural Requirement

In addition to the State of Texas core curriculum, every student must include at least one 3-hour multicultural course or its equivalent that focuses explicitly on the distinctive subcultures of the United States or on the culture of another society.

Maximum number of transferrable semester credits hours from a two-year institution applicable to a baccalaureate degree at the university is 80.

Texas Tech University Whitacre College of Engineering Assured Admissions

MC students meeting the following WCOE assured admission standards for transfer students are guaranteed admission to the WCOE:

1. Complete 24 or more semester hours of transferable college work beyond high school graduation and;
2. 3.0 Cumulative GPA.

Transfer students meeting the assured admission criteria for the WCOE will enter into the college's "foundational" curriculum in their respective engineering major department (i.e. civil, chemical, etc.). Students will be required to complete a minimum of 12 semester credit hours with a GPA of 2.5* or higher of coursework applicable to progression in their respective engineering major to be fully admitted into their chosen departmental program.

***Note:**

1. Mechanical engineering program requires a 3.00 or higher GPA
2. Petroleum engineering program requires a 3.40 or higher GPA and due to the competitive nature of this program only 250 students in a given academic year will be allowed to transition to the upper division degree program. The transition from lower-division to upper division curriculum occurs annually in December.

Texas Tech University agrees to:

1. Provide pre-transfer academic advising for MC students per semester through Office of Admission's Academic Advisors.
2. Office of Admissions will provide recruiting and/or advising once per month at the Midland College Campus.
3. Provide communication regarding admissions policy and procedure updates, campus recruitment events, and scholarship opportunities to MC;
4. Provide a link to MC on the Whitacre College of Engineering websites;
5. Provide the Engineering crosswalks on TTU's Office of Academic Partnerships website;
6. Host MC students for an engineering transfer exploration visit to the TTU campus.

Midland College agrees to:

1. Promote the seamless transfer of students to TTU by ensuring that information on the transfer equivalency for MC course(s) is current and readily available to both students and academic advisors at MC.
2. Encourage students to utilize the academic advising services and resources offered through the Office of Undergraduate Admissions at TTU.
3. Within legal guidelines, provide information about prospective transfer students with the goal of making students aware of scholarship and other financial aid opportunities and the potential to satisfy Associate and Bachelor's degree requirements by transferring course work between both institutions.
